

### **Zvezdan Pirtosek, MD, PhD**

Zvezdan Pirtosek, MD, PhD is Consultant Neurologist and Professor of Neurology. He is Head of Department of Neurology at the Ljubljana University Medical Centre and Head of Chair of Neurology at the Medical Faculty of the Ljubljana University. Currently he serves as the President of Slovenian Brain Council.

His main clinical and research interests involve movement and cognitive disorders; he was one of the first European neurologists to introduce new treatments of movement disorders with botulinum toxin and apomorphine at the Ljubljana Neurology Clinic. He is also active in the field of cognitive neuroscience & dementia and is a member of the JPND Managing Board at EU.
